STRIKE ENDED.

The Men Decide to Return to Work at the Cld Scheduly Prices.

resided Mine timuers Wantel Acres 1s tive Them Iteir tild Places-Hotsido of the or Two Moves the Oil Men Will He Taken Back.

LEADYHAA, Col., Sept. 28. - The great diners' strike which has kent Leadille in a turmed for nearly two months and which resulted in the killing of five men last Monday morning and the subsequent placing of the city under nortial law, is endel. A meeting of the strikers was held Saturday night under the supervisor of the militia, and after a stormy assign it was finally decided that the men return to work at the old sched nle prices, providing the mine owner would agree to give them their obt places. A committee of five was appointed to confee with the mine own as, and as it is generally believed that outside of the one or two mines that have started up with non union men, the old men will be taken back, us further trouble is expected.

The strike was the outcome of the organization of the miners by the Western Te leration of Miners, and almost every mine worker was in the mion when their demands were made and refused. The miners asked \$1 a day for all

lasses of workmen, including surface nd underground men. This the owners declared they would not pay, and nearly all of them closed down, sevral even allowing the pumps to stop The employers remained willing to continue paying the wages which had prevailed up to that time. I'nder that eate surface workers were paid only \$2.50. Practically the only change the union demanded was the advance of the wages of this class of men to \$1. La vioviria. Vol. Sept. 28.-Lient.

TRADE REVIEW.

A Distinct Improvenced in the Boyle of Material The Price of Wheat Hose & 1-8 Cents Higher for the Week. NEW YORK, Sept. 26.-R. G. Dun

Co. says Saturday: A very moderate and yet distinct inprovement is seen in the buying of materials, which stiffens prices also in orders for products of some industries in mey markets and In exports of staples. It has started some improve ment works and prompted a few con siderable contracts. While the gain in working force Is not great it seem clear that for the lirst time in many nonths there is some net gain. An important change is the general

advance in produce markets, especially in wheat, which rose sharply on Thurs day and Friday, chosing 50, e higher for the week. Reports of crops alread were supposed to be the chief cause as visible supplies in this country i creased largely, but for the first time since July t western receipts felt be ow those of the same week last year. Atlantic exports, flour included, were for the week a little more than a year ago, for September 2,000,000 more and 1,807,550 bushels since July 1, agains 14,128,308 last year. If there should rome an nunsual foreign demand i would make a great difference with future business

Cutton advanced no eighth a weel ago, but lost three-sixteenths and with full receipts might have gone farther but for resumption of work by several mportant mills. Much less than the full capacity of mills is working and the demand for goods has been quite slack, with a decline of a sixteenth in print cloths, but in other goods recently advances are maintained. Speculative buying of wool does not abate, sales for four weeks having been 2t, 844,400 pounds against 23,758,970 last year, but no cain in prices resulted. A few of the woolen mills are resuming the belated demand for heavy goods constituting most of the gain visible, that more goods will be wanted when the future is more clear.

Finished products of iron meet more nquiry and the placing of contracts for 15,000 tons of steel for three new the starting of two or three works, but after such months as have passed a little business is a gain. A sharp fall of \$2 per ton in low phosphorns pig and alight rise in grey forge at Pittsburgh and in steel plates are the only change noted in prices.

Tin plates are slightly lowered by consumption to \$3,55 against \$3.90 for foreign and tin is a shude weaker ut 13 cents, copper at 10,75 and ead at 2.50 cents. There is no change in the boot and shoe manufacture. Failures for the week have been 315

PRINCE BISMARCK.

OLDEST KNOWN BI' Prof. F. 11. Secley Tells of 10 to a Recent

"The Solenbofen slate of Bavaria," writes I'rnf. H. G. Seely In his recent little volume, "The Story of the Earth in l'ast Ages," "makes known numerous insects and other forms of terrestrial life of this period, including the oldest known bird.

"A hird is known by its feathers; though there is no reason why the eovering to the skin should not be as variable in this group of animals as among reptilea or manunals. It is, therefore, remarkable that the oldest-known bird, the archaeopteryx, has feathers as well developed as in the existing representntives of the class and similarly arranged. The naimal is an elegant, slender hird, which is chiefly remarkable for showing teeth in the jaws. About 12, short and conleal, occur on each side of the upper je "The bird was larger than
